

Convert 3s Canadian Socket To 3s ANSI Style Meter

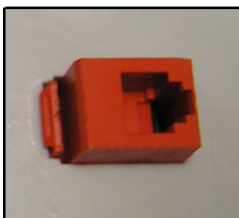

Both Meter & socket viewed from front, as if looking through meter.

CSA Certification Pending

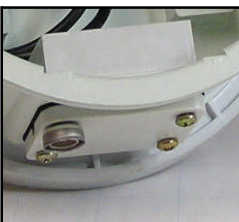

Self-Shorting Switch

Self shorting switch in adapter provides shorting of CT's automatically when meter is removed from meter socket adapter. Snap acting switch provides no switch hesitation. Switch rated 15A, 240 Volt. Insulated arm for meter presence detection. Enclosed switch design is resistant to dirt, moisture and critters.

RJ-11 Receptacle

RJ-11 jack mounted on adapter floor for easy connection to meter communication cable. Insulated leads connect to external access junction box in bottom of adapter. Communication cable from meter simply plugs into RJ-11 jack and the adapter provides interface to outside of adapter.

RJ-11 Junction Box

RJ-11 junction box is sealable and weather proof. The cover is provided with a one time use tamper proof seal. Cover secures to adapter with standard phillip head screws for easy installation. Gasket is attached to cover of junction box to eliminate loss and misalignment of gasket during installation and service. 3M Scotchlok connectors are standard.
