

## POWER SOURCE

**Quickly connect your device to a POWER source at the meter socket.**

It is often necessary to place a utility owned device on a customers home and connect it to a source of power at the meter socket. It might be a fiber interface gateway, an AMR concentrator, or simple yard light. No matter what the device, one of the many Marwell POWER SOURCE adapters will simplify your installation. Fits ring or ringless style meter sockets. Rated 200 Amp CONTINUOUS when used in 200A continuous sockets.

### Three basic types - other options available:

- **1000-0-R4 w/NC-300**, Un-fused with screw terminals on the jaws (not-shown).
- **1000-0-R4-YARDLITE**, Fused lead with terminal block, 120V or 240V.
- **1000-R4-Q-10**, 10 Amp circuit breaker with external reset, 120V only.
